

**A One Day Course Product Safety – Regulatory Affairs
FIREWORK SAFETY – EXPLOSIVES REGULATIONS 2014 INSPECTIONS
AND PYROTECHNIC ARTICLES (SAFETY) REGULATIONS 2015**

**Warwickshire Trading Standards, Old Budbrooke Road, Warwick, CV35 7DP
Tuesday 17th September 2019 9.15am – 4.45pm
£135 + VAT inclusive of lunch and refreshments**

This one day workshop has been jointly arranged by CEnTSA and Food and Farming Compliance Ltd. to provide advice and training involving practical problem solving sessions on the Pyrotechnic Articles (Safety) Regulations 2015 and the responsibilities placed on market surveillance authorities.

In the UK Fireworks is still a significant market, particular for the Autumn season but increasingly year round for other celebrations. Trading Standards Officers are responsible for the safe storage of the product as well as the sale and composition of pyrotechnics. Trading Standards Professionals act as Health and Safety at Work Act inspectors in relation to the storage of fireworks which is a very different responsibility to that of market surveillance and investigation.

Until 2012 Fireworks were regulated under domestic legislation but since then the European dimension has taken over and such products are now part of the free market in goods. As such the focus of regulation and approval has moved from product approval to EU-type approval with notified body involvement in internal production control, from the design stage, through process to the end product. This presents significant challenges to market surveillance officers in terms of their ability to ensure that manufacturers and importers are fulfilling their obligations for this high risk product.

Course Objective

At the end of the course delegates will be better equipped to with the knowledge and skills to undertake explosives inspections at a variety of different premises, and to undertake a risk assessment in relation to non-compliances with a view to taking corrective actions and legal process. Delegates will also be better equipped to enforce the requirements and obligations placed upon all economic operators in relation to the Pyrotechnic Articles (Safety) Regulations 2015, particularly focussing desk top audit of conformity assessment documentation and visual examination of fireworks.

How to secure your place

To book your place please visit www.centsa.org.uk

All users need an individual username and password. To request an account click 'log in' and 'Request an Account' and submit the form. You will receive an email with your username and password enabling you to log in and book a place. You will receive confirmation of your booking by email. If you do not receive confirmation please check your spam filters or call the number below to ensure your booking has been received. Following the course, delegates will need to log in to complete the course evaluation and download their CPPD Certificate.

Please make your purchase order out to: CEnTSA and email to centsa@warwickshire.gov.uk
Full financial details are available on request by emailing CEnTSA or calling 01925 414058.

Please note: In the event of circumstances beyond CEnTSA's control, CEnTSA reserves the right to amend or cancel any event, including where an event is not viable to run based on insufficient delegate numbers. Terms and Conditions apply. Ts and Cs are available at www.centsa.org.uk
