

Animal Health and Welfare

Stock Assessment: Sheep and Lambing

The Farmstead, Cloatley Road, Hankerton,
Malmesbury, Wiltshire. SN16 9LQ

Wednesday 6th March 2019
9.15am – 4.35pm

£160 + VAT inclusive of lunch and refreshments

This practical course on a farm, arranged by Food and Farming Compliance, will provide an in a supervised and safe environment, the opportunity for delegates to learn sheep handling skills and be given a basic understanding of the sheep industry. There will be demonstrations and opportunities to practice the handling of sheep. It will provide details of how to recognise unfit sheep and those that are not fit to be marketed and transported

It is intended for those officers appointed to Local Authority departments who are responsible for administering and enforcing the provisions of Animal Health and Welfare legislation, in relation to sheep. The course is also relevant to Animal Health and Welfare staff of Central Government Departments and Agencies and to the FSA Official Control Personnel. It will also be of importance for the staff of Animal Charities and Quality Assurance Schemes

HEALTH and SAFETY - Pregnant women are not permitted to attend this course. Pregnant women who come into close contact with sheep during lambing may risk their own health and that of their unborn child from infections that can occur in some ewes.

Course Objectives

- To learn how to distinguish between fit and unfit sheep
- To enhance proficiency in sheep handling
- To improve confidence via an understanding of sheep production methods
- To understand how to condition score and its relevance
- To appreciate when to summon a vet
- To understand and interpret the Welfare Code: Sheep
- To understand the care required for ewes and their new born lambs

The Course will provide 5-30 hrs CPPD
